

T. Hannigan

Governor Gray Davis:

Please lead California to a smarter future - save our rivers, bays and drinking water, and move away from the old ways of massive dams and canals that harm our environment.

Please endorse the CALFED Bay/Delta program. This program invests in water efficiency for at least seven years; restores rivers, bays and fisheries; improves water quality; and stops making the taxpayer pick up the tab for new damn and reservoir studies.

Thank you for taking this time as a way of contributing to a SUSTAINABLE WATER FUTURE FOR CALIFORNIA.
